## Resume Summary

I am hands on with various Apple hardware and software technologies for users, developers and enterprises. I have developed various native **iOS** apps. I am enthusiastic about various software development tools and practises such as technical management, version control and deployment tools.

I am always willing to explore and learn best possible technology for the job at hand. I am inclined towards growing as a software developer by enhancing my understanding of fundamental concepts and tools.

I have close to **9 years** of experience wearing multiple hats such as Software Developer, Technical Lead, and Project Manager. Apart from full time jobs, I have also worked on various projects as independent consultant.

## Professional Skills

**Languages :** C, Objective-C, Swift, AppleScript, JavaScript  
**Frameworks :** Cocoa Touch, Foundation, UIKit, SwiftUI  
**Toolchain :** Xcode, Instruments, Bash, Homebrew  
**Source Control :** Git, Subversion  
**Operating System:** macOS Tiger - Catalina, Ubuntu, Debian

## Academic Background

**Master of Computer Applications (2008 - 2011)**

National Institute of Technology Karnataka, Surathkal (NITK)

**Bachelor of Computer Applications (2005 - 2008)**

Makhanlal Chaturvedi National University, Bhopal (MCNUJC)

## Miscellaneous

I maintain an active profile on Codementor.io, an online platform where I provide one-to-one assistance to software developers and students with programming and software development tasks.

I also maintain a strong profile on Ask Different, a Q&A website for power users of Apple hardware, software and service

I have also helped conducting iOS app development bootcamp training sessions.

Work samples and references from previous jobs available on request.
